DOORsets.net is a small family run business, situated within 2 miles of City of Derry Airport in Greysteel just off the A2 main road and dedicated to the supply of premium quality products to both the building industry and Self-build projects. Our aim is to offer to the potential buyer what we believe to be the best possible Quality, Service and Value for Money in the country.

We are dedicated to not just meeting but indeed exceeding the expectations of our customers, providing expert advice and guidance on our products and keeping the customer totally informed on the progress of their order from initial enquiry through the manufacturing process to delivery and installation, which we can also arrange.

We offer to the market a premium range of German manufactured Pre-finished Laminate, Veneer and Glass Door-Sets that would enhance any home. This type of Door-Set, popular in Europe for years, is relatively new to the market here and offers a number of advantages over traditional doors. Firstly it eliminates the need for First Fix Joinery, secondly there is no Drilling for Locks, no Cutting out for Hinges, No Fixing of either Hinges or Locks no need to Plane Door Edges to make them fit, No Creating Mitred Joints and of course there's No Nailing. As these Door-Sets are pre-finished there is no Painting either and Door-Sets can be fitted after all wet trades have finished. Thus the risk of on-site damage is dramatically reduced. Maintenance costs are also reduced as these Door-Sets are designed not to shrink, warp or develop shakes. Adjusting of the pre-installed hinges is simplicity itself.

The various regulatory authorities have, for some time been keen to promote the use of Fire Door-Sets rather than the traditional method of first and second fix Fire Door installation. All our Fire Door-Sets comply with both the British BS 476 and European Standards making them particularly suitable for Apartment Developments, Hotels and Offices etc.

We also offer a range of Doors-Sets with Sound Proofing, Cold Smoke Protection and for Climate Sensitive applications.

All this and nice people to do business with too. Read for yourself below, the comments made by existing **DOORsets.net** Customers. Drop in and see us in our showroom at any time or ring and we will happily come to you. Distance no problem.

Mr E.B. Homeowner, Co Down:

An Excellent Product combined with helpful friendly service nothing is too much trouble even after sales."

Mr D. M. Builder/Developer, Co L'Derry:

"Fantastic product for quick completion. Excellent level of service and good relations with staff on site. Have already recommended them to others."

Mrs N.B. Homeowner, Limerick:

"Very efficient, followed up everything, kept me informed of progress and a very good after sales service".

JMA Contractor, Co Longford:

"So good I've installed them in my own home. Courteous efficient service, these people really do what they say they will do, I would happily recommend them."

HMG Architect and Developer, Co Donegal:

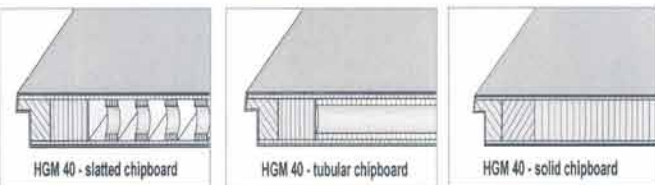

I was a bit apprehensive initially, but decided to give it a go. The order arrived just 5 days prior to opening so there was no room for error as all decoration was complete. The packaging and quality of the product was if anything better than expected. The fitting was quick, simple and hassle free. The clinical finish and clean lines of door and trimmings was greatly admired by all viewers.
